EXPERIENCE

Process Engineer
Techint Group
2026 – Present | Argentina

- Led process optimization projects in industrial operations
- Reduced operational times by 18% through workflow redesign
- Developed KPI dashboards for performance tracking (Excel, Power BI)

Supply Chain Analyst
Unilever
2025 – 2026 | Argentina

- Analyzed logistics and inventory data to improve efficiency
- Reduced stock shortages by 15% through demand planning
- Collaborated with cross-functional teams in regional projects

Engineering Intern
YPF
2024 – 2025 | Argentina

- Supported production planning and process analysis
- Built reporting tools in Excel for decision-making
- Assisted in continuous improvement initiatives

PROJECTS

Process Optimization Model
Academic Project

- Developed a model to optimize production flow
- Applied Lean Manufacturing and data analysis tools

Data Analysis Dashboard
Personal Project

- Built interactive dashboards in Power BI
- Visualized KPIs for operational decision-making

EDUCATION

MSc in Industrial Engineering
Politecnico di Milano
2024 – 2026 | Italy

Industrial Engineering
Universidad Nacional de Cuyo
2020 – 2025 | Argentina

Doble titulación internacional con Politecnico di Milano

INTERNATIONAL EXPERIENCE

Academic Exchange
France
2023 – 2024

- Studied engineering subjects in an international environment
- Developed cross-cultural communication skills

SKILLS

Excel | Power BI | Data Analysis | Lean Manufacturing | Process Optimization | Project Management
